ABOUT TASN

The Texas Association for School Nutrition was founded in 1953 and incorporated on June 24, 1964. In the 70 years since its inception, TASN has grown to more than 4,700 members and has served as an advocate and resource for child nutrition professionals in Texas.

Training and Certification

For more than 30 years, TASN has undertaken a certification program to help school nutrition professionals continue their education and reach career goals. College courses, workshops sponsored by the Texas Department of Agriculture, and TASN training seminars can be used toward certification. These programs not only improve the value of service to school children, but they enhance members' earning potential and career development.

Scholarships for Continuing Education

Texas Association for School Nutrition awards a number of scholarships annually to deserving members. These scholarships help pay for a variety of educational opportunities ranging from college courses to training towards certification.

Sharing Information Through Networking

One of the greatest benefits of membership in TASN is the abundance of opportunities to share ideas and experiences with other professionals in both structured and informal settings. The wealth of information and assistance available to all members helps raise the level of performance and service to children across the state.

TASN'S VISION STATEMENT

Positively impacting the health and education of Texas children through nutrition.

ANYONE UP FOR A CHALLENGE?

As I close, I leave you with this: as of mid-2023, there were 339,996,563 people in the United States. Is anyone up for a challenge? If so, the 2024 challenge is to work on one thing you can improve personally and one thing you can improve professionally. Think of the impact this will have if each of us takes the challenge.

Greetings from TASN Vice President Susan D'Amico

Happy New Year to our TASN family! For any of you who are new members, you will quickly learn that we feel like a family because of the way we share ideas and inspire each other to do our best for the students in Texas, no matter the obstacles we face. I read a good quote recently that said there is no

elevator to success; you have to take the stairs. The part I would add is that in TASN we are all climbing together!

As Vice President, I have the honor of planning the **Partnership Collaboration Summit** this year (along with lots of help from the TASN staff and

my committee). We are looking forward to seeing many decision makers and industry partners in Horseshoe Bay from January 29–31. Not only is it an outstanding location in the Texas Hill Country, but we will have Joe Pettit as our keynote speaker, outstanding breakout sessions, and some Mardi Gras celebrations.

Horseshoe Bay Resort

Greetings from Area 4 Representative

Tanya Davis, Henderson ISD

Greetings from Area 4!

At Henderson ISD, child nutrition employees worked tirelessly during the month of October to showcase local products. Students were served items such as nachos made with local grass fed beef produced in Henderson,

Texas baked sweet potatoes, and delicious locally grown watermelon and apples. This was an excellent way to create new opportunities for students to experience locally grown food served in their school cafeteria.

In other news, I will be reaching out to other directors and members in this area to offer information and encourage new membership. I hope to enlighten child nutrition staff about the exciting opportunities TASN has available to increase knowledge and camaraderie in our profession. This is a great time to get involved with TASN. Want to know how to start a chapter, join TASN, and reap the benefits of this great association? Please reach out for assistance or for any questions: tadavis@hendersonisd.org

Garland SNS

Garland ISD SNS had a busy fall. We celebrated **National School Lunch Week** and Thanksgiving and rolled out our new vending machine program.

NSLW was a smashing success! As part of this celebration, SNS “leveled up” several of our classic menus. Special menu items included Dorito Walking

Tacos, Minecraft Mashed Potatoes, Ninja Turtle Chicken Bacon Ranch Pizza, and Fireball Grilled Cheese. In addition to exciting dress-up days correlating with popular video games, campuses participated in a Tray of the Day photo contest.

We have so much to be thankful for in Garland ISD. We celebrated Thanksgiving with our wonderful SNS staff, students, and district families by serving a classic turkey dinner with all of the fixin’s!

Included on the right are two recipes our very own Chef Kevin developed for the occasion: pear cobbler and green bean casserole.

This school year, SNS launched a reimbursable meal vending program. The program allows our students who attend

classes at community colleges, have early morning swim practice at the district natatorium, or attend class at our Career and Technology Center access to meals they haven’t been able to receive when away from campus. The vending machines work with

our point of sale system by allowing students to input their pin numbers, just as they would on campus. Meals are prepared fresh, packaged at one of our high school campuses, and delivered daily to the four vending locations. The program has been very well received by our students! A key to the program’s success has been supportive administrative staff. We will be expanding the program to all of our high school campuses soon.

What an extraordinary team we have here at Terrell ISD. The words "I can't" are not in their vocabulary.

They are seasoned vets with a desire to please!

In 2020 when the bottom dropped out on us all, our team trained, prepared 6,000 meals, and got on buses to deliver to every student in Terrell. We did this daily for four months without a single hiccup.

Good morning!!
 I just had to share this with you...last week on corn dog day (the kids LOVE corn dogs) one of my boys said, "This is the best corn dog ever!"
 Also, one day (I forgot what we it was we were eating- maybe the pizza) one of of my kids said, "This is better than my mama's!"
 Our ladies are doing a fantastic job!!!
 Ms. Cannon

Good afternoon!
 Just here to brag on my people again! Ms. Lee orchestrated a beautiful and delicious Thanksgiving feast for our little people! They loved it, and we loved that it was so festive and just like a Thanksgiving feast should be! Thanks so much to Ms. Lee, Ms. Martina, and Ms. Maria for all of their hard work!
 The kids also loved the spaghetti again, and as always, ate up the nuggets that were served today! Thanks for hearing us and ordering foods that our kids will eat!
 Have a great break!
 Charlstie Calhoun
 WH Burnett, TISD | PreK4 Teacher

Thank all of you for your hard work yesterday! The food was wonderful, and although LOTS of people ate, we still had plenty left! We're all having fruit for breakfast this morning! I may be prejudiced, but I think that was one of the nicest retirement receptions I have been to, and you were certainly a big part of making it special! We couldn't have done it without you! You are appreciated more than you know!
 Debbie Peden
 Financial Secretary
 Terrell ISD Special Services

Good morning,
 I am truly blessed to work with the best! Thank y'all so much for taking care of us on Friday even though it was a late request! I appreciate it so much!
 Please send me the invoice to get it taken care of. Again thank you so much!
 Kassandra Lopez
 Admin. Asst. to Deputy Superintendent

Good Evening Mrs. Tidwell,
 I just wanted to let you and your nutritional team know how much I appreciate all the hard work our cafeteria staff puts into our school. No request is too big or too small and they are always willing to help and they make an extra effort to really get to know the kiddos. They make every effort to make sure our breakfast, lunch, and snacks are prepared on time. They are an exceptional bunch and I more than grateful to have them on our side. I also enjoy seeing you at the campus! It's always a pleasure.
 Thank you
 Mrs. Ontiveros

Eagle Mountain-Saginaw ISD

This year Eagle Mountain-Saginaw ISD celebrated National School Lunch Week by offering an educational report about the benefits of Texas-grown oranges. This celebration helps to remind us of the importance of a healthy school lunch to a student's success, both in and out of the classroom. We encourage students to eat breakfast and school lunch because we see that reducing child hunger improves student behavior and supports academic achievement. It also helps us to educate parents and students about all the wonderful benefits of our lunch program.

We were very excited to host a traditional Thanksgiving meal this year. We had several schools serving special meals. The students' faces

were full of joy when they saw their parents coming into the cafeteria to celebrate with them. The Thanksgiving lunch menu

included turkey, mashed potatoes, green beans, stuffing, and cinnamon spiced apples. The parents' participation was amazing, and our school and nutrition staff worked very hard to make the event unforgettable.

Updates from our chapters are one of the best things about the TASNews. We'd love to hear what's happening in your district and chapter!

EDUCATION UPDATE

by **Kasandra Davis**
TASN Education Chair

I hope you were able to relax, take a break and Celery-brate the holidays! It's hard to imagine that we are already halfway through the 2023-2024 school year and next year's planning has either already started for you or it's coming up very soon!

Did you know the education committee oversees the certification program, Administrative and Manager Academies, scholarships, and awards,

and participates in the TASN Annual Conference Planning Committee?

We offer a lot of details pertaining to these categories on the TASN website but I

wanted to highlight a few.

In October, we hosted the first half of our Administrative Academy in Corpus Christi. We had 21 attendees participate in a two-day face-to-face learning series geared to strengthen their knowledge in school nutrition and a successful program.

We will be gathering again in a few weeks to complete the in-person sessions.

Attendees who complete

the entire Administrative Academy and exam will be recognized at the TASN Annual Conference in June, in addition to our 50 Managers Academy graduates.

TASN offers a variety of scholarship opportunities to our members for continuing education in ESL, GED, and college courses as well as attending training and conferences for TASN Administrative Academy, TASN Managers Academy

and the TASN Partnership Collaboration Summit. Scholarship recipients are recognized and awarded at the TASN Annual Conference in June and must be claimed by August 31st of the following year.

We are looking for the next School Nutrition Specialist, Manager, and Director of the Year! These are just a few of the individual awards TASN offers to our school food service professionals to help them excel in foodservice achievement and to promote management excellence. In addition to individual awards, TASN offers local chapter

awards for Certification, Membership and Local Plan of Action; and, districts are able to apply for the Breakfast and Lunch Participation

awards. Take advantage of these opportunities to recognize the individuals and colleagues in our industry that are creating positive change!

I want to ensure that TASN is meeting our members' needs and that they see value in what we offer. If you have suggestions for learning sessions at conferences, academies or otherwise, please feel free to share those with me:

BREAKFAST BARRIERS

by Darin Crawford, Assistant Superintendent for Support Services and
Suzy Hunter, Nutrition Services Director, Cypress-Fairbanks ISD

This year in our district there has been a renewed focus on removing barriers to breakfast. We use a lot of tools to remove these barriers, but the two most successful are grab-and-go breakfast and second chance breakfast. Neither of these are new ideas, but placing a renewed focus on them has led to some spirited conversations with principals and district administrators, a lot of problem solving, and a big increase in our reimbursable breakfast participation.

So far this year, our ADP for breakfast has increased from 28.3% to 34.0%. This is over 6,000 more reimbursable breakfasts each day. That makes an impact, and it is worth the effort. Here are some of the things we have done to help our kids eat.

Start at the top and work your way down. It is easier to get a seat at the various tables if you are invited. We meet with our Assistant Superintendents for school leadership, and each month we send them data. The key metric that we have been using is the difference between our campus free and reduced percentage and the breakfast participation percentage at that campus. Why this data point?

Our free and reduced percentage is used by many departments in our district. It is a data point that everyone is familiar with. However, do they really understand what it means? No. So we tell them. If a child qualifies for meal benefits, they are also labeled by TEA standards as economically disadvantaged. Simply put, Hunger = Disadvantage. Their families have applied for help feeding their students. We know this, but we don't always emphasize it. A free or reduced child

is a child that is at a disadvantage to acquiring an education. Their families have recognized a need, requested our help, and have successfully jumped through the hoops to receive our assistance. I will say it again, this time louder for the people in the back.

A free or reduced child is a child that is at a disadvantage to acquiring an education. Their families have recognized a need, requested our help, and have successfully jumped through the hoops to receive our assistance.

How many of these children get breakfast? For most campuses the answer is not enough. The reason for this is that we set up additional hoops. Once we demonstrate this with data, it begins a conversation about taking down hoops.

We encourage grab and go breakfast eaten in the classroom. We always, **(EVERY SINGLE TIME!)** see a huge increase when we implement this program. We usually get resistance. Spills and loss of instructional time are the primary pain points. Spills can be cleaned. Period. It's a weak excuse, and we say that. Instructional time is trickier, but not insurmountable. Instructional time is not an indicator of academic success, nor is it the single predictor of academic success. Hunger causes instructional time to be unproductive, and these kids are hungry. We know this. They are so hungry that TEA says that they have a disadvantage that will impede their ability to get an education.

Show your data, tell your stories, and use TEA jargon. Don't shut up until they let you feed your students.

What are Healthy Fats?

Chelsea Becerra, SHSU Masters of Science & Dietetic Internship Student for Cleveland ISD

Fats play a crucial role in your daily dietary requirements. While they provide essential energy and aid in vitamin absorption, it's important to note that not all fats are beneficial for your health.

Fat Groups

Trans Fats

Bad Fats

Trans fats can be found naturally in animal products such as beef and lamb, as well as in partially hydrogenated oils. Consumption of foods rich in trans fats can lead to an increased risk of high cholesterol and insulin resistance.

Saturated Fats

Unhealthy Fats

Higher levels of saturated fats are primarily found in animal products. Consuming such a diet increases the likelihood of developing cardiovascular disease. Consumption of these fats should be limited to < 10% of calories per day.

Polyunsaturated Fats

Healthy Fats

Polyunsaturated fats, found in plants and seafood, are known to help improve blood cholesterol levels when incorporated into your diet.

Monounsaturated Fats

Healthy Fats

Monounsaturated fats, commonly found in plants and seafood, have been proven to improve insulin sensitivity when incorporated into your diet.

Sources of Fats

Being cognizant of the types of foods that provide optimal fats is essential. This knowledge enables us to make informed decisions and select foods that don't contain excessive amounts of bad or unhealthy fats.

Trans Fats

It's recommended to limit your intake of baked goods, and consume them in moderation on special occasions.

- Commercial Baked Goods
- Frozen Pizza
- Shortening
- Margarine

Saturated Fats

Foods high in saturated fats, such as fast food and junk food, should be consumed in moderation similar to trans fats.

- Ice Cream
- Red Meats
- Pizza
- Chips

Polyunsaturated Fats

Replacing your saturated fats with polyunsaturated fats has shown to significantly improve total cholesterol and LDL "bad" cholesterol.

- Salmon
- Tuna
- Walnuts
- Pumpkin Seeds

Monounsaturated Fats

Incorporating monounsaturated fats into your diet, alongside polyunsaturated fats, can benefit heart health and insulin sensitivity.

- Avocado
- Almonds
- Peanut Oil
- Olive Oil

Interim Final Rule Starts New Year with Thoughts of Summer

By Lena Wilson

Assistant Commissioner for Food and Nutrition
Texas Department of Agriculture

Another year bites the dust! The successes of 2023 are in the rearview mirror, but we have much to look forward to in 2024. This year marks

your achievement of using USDA's Web Based Supply Chain Management (WBSCM). You prepared throughout the year and now you have a system that streamlines the management of your USDA Foods entitlement. Remember, you can save about 12 percent on your

food budget with good use of USDA Foods.

Even though the year is young, we are already looking ahead to summer 2024. In the final days of 2023, the U.S. Department of Agriculture (USDA) published its Interim Final Rule pertaining to an option for Summer Non-Congregate feeding in rural areas via the Summer Food Service Program (SFSP) and Seamless Summer Option (SSO).

The options in the Interim Final Rule should enable more contracting entities (CEs) to reach children in rural areas who haven't previously participated

in Summer Meal Programs due to barriers such as transportation. Eligible CEs serving those areas can apply to distribute nutritious meals outside of the typically required group settings and meal service times. The Texas Department of Agriculture (TDA) continues to evaluate the Interim Final Rule and will provide new guidance on eligibility and the application process in the coming weeks.

Thank you to all of you who operate Summer Meal Programs. If you do not, please consider bringing this resource to your communities. Renewal applications for SFSP opened on January 15 and are due May 1. Are you pondering the decision to operate this summer? Remember, if your school is new to SFSP, you must submit your intent to operate the program via the SFSP Intake Form on [Squaremeals.org](https://www.squaremeals.org) by April 15. The deadline for renewal and new SSO applications is May 31. In 2024, TDA will continue exploring ways to maximize Summer Meal Programs, especially for children living in hard-to-reach rural areas.

Supporting rural communities and agricultural producers includes buying local foods. Many schools will use funds from Local Food for Schools (LFS) to do just that. TDA awarded 331 schools LFS amounts from \$30,000- \$250,000 depending on

continued on next page

continued from previous page

enrollment. The funds will purchase unprocessed or minimally processed Texas food products such as milk, meat, and fruit. I am looking forward to growing the Farm Fresh Network as more schools use LFS to engage with small agricultural businesses.

The Texas Department of Agriculture is currently reviewing USDA's Interim Final Rule related to Summer Non-Congregate feeding in rural areas. The interim rule should help bring the Summer Meal Programs to more Texas children. Last year, Texas schools used the Seamless Summer Option to serve more than 8 million meals and snacks during the summer break.

Important news from USDA is that Congress is currently negotiating a measure (H.R.1147 – Whole Milk for Healthy Kids Act of 2023) that would allow schools to serve whole milk. I am interested, just as you are, to see how this will impact meal pattern requirements. Please know that TDA will continue to advocate on your behalf. We will provide up-to-date guidance as it becomes available.

During 2024 we will continue efforts for more communication with schools. TDA's success is often determined by the depth of the information received from you. In 2023, we introduced new webinars such as FSMC Fridays and LFS Office

Hours to ensure you had access to important information and answers to some of your questions. The monthly NSLP Newsletter has updates you need, and school webinars continue to open lines of communication.

Thanks to open and honest feedback we learned that many schools are paying consultants for operational guidance that the Education Service Centers (ESCs) are contracted with TDA to provide. TDA has devoted significant resources and energy to ensuring the ESCs provide the latest guidance directly from TDA and USDA as well as expert technical assistance. We are determined to support your efforts to provide quality school meals. Districts should make sure that consultant contracts do not duplicate those in place with ESCs. We have created a Frequently Asked Questions (FAQs) document to help you navigate allowed and unallowed contracted services.

As we look ahead to the new year, I am confident that all of you are up to any challenge and open to every opportunity. If you feel you are not getting the assistance you need to be successful, I encourage you to reach out to me at (877) TEX MEAL (839-6325) or squaremeals@texasagriculture.gov. Please know that TDA Food and Nutrition and the ESCs will work to get you the information and support you need.

I look forward to working with you to make 2024 a great year as you continue to serve children and develop local nutrition programs that contribute an invaluable service to Texas communities.
